PROFESSIONAL SUMMARY

Mainframe Developer with **5+ years** of hands-on experience in COBOL development, batch processing, and production support on IBM platforms. Proven expertise in designing and maintaining mission-critical systems across Healthcare and Retail domains. Strong SDLC implementation background delivering reliable, high-performance solutions. Based in **Wolfsburg, Germany**. **Work Authorization:** Valid residence permit for Germany | **Availability:** Immediate | **Travel:** Yes | **Relocation:** Within Germany

---

TECHNICAL SKILLS

Mainframe Technologies: - **Programming:** COBOL (5+ years), JCL, CICS, REXX - **Databases:** DB2, IMS DB, VSAM, SPUFI - **Tools:** FileAid, Endevor, Ctrl-M, IBM Debug Tools, Xpediter, CA7 - **Data Transfer:** MFT, FTP/SFTP, NDM/Connect:Direct - **Version Control:** Endevor, Git, Jenkins

Additional Skills: - SQL, MsSQL - Batch Processing & Job Scheduling - Data Integration & File Mapping (CIF850, CIF810, CIF856), XML, JSON, API Integration, Zos/ connect - Production Support & Incident Management - Agile/Scrum Methodologies - Requirements Analysis & Technical Documentation

Project Management Tools: JIRA, Rally, ServiceNow

PROFESSIONAL EXPERIENCE

Senior Mainframe Developer

GalaxE.Solutions | Hyderabad, India (Remote)
November 2022 - July 2024 (1 year 9 months)

Project: US Healthcare - Polar Eligibility System

Led development and automation initiatives for a high-volume healthcare eligibility processing system handling Medicaid, Medicare, and Commercial client data with **99.9% uptime**.

Key Achievements: - Developed **automated data switch system** reducing manual intervention by 70% - Built and maintained **25+ batch COBOL programs** processing 2M+ records daily - Reduced batch processing time by **30%** through DB2 and JCL optimization - Managed secure data transmissions via MFT, FTP/SFTP, AWS ensuring HIPAA compliance - Provided **24/7 production support** with 95% first-call resolution rate - Achieved zero post-production defects in 8 consecutive releases

Technologies: COBOL, JCL, DB2, VSAM, Endevor, Jenkins, MFT, SFTP, AWS

Associate Mainframe Developer

Cognizant Technology Solutions | Chennai, India
May 2019 - November 2022 (3 years 7 months)

Project: Retail Import-Export Transaction Management System

Developed and supported multi-application framework managing B2B transactions between importers and exporters.

Key Achievements: - Developed and maintained **20+ COBOL/IMS DB batch programs** processing EDI flows (850, 810, 856) - Integrated **5 new business partners** through CIF file mapping and workflow design - Reduced order processing errors by **40%** via enhanced validation routines - Performed impact analysis for changes affecting **50+ interdependent programs** - Achieved **zero downtime** during critical holiday seasons

Technologies: COBOL, IMS DB, JCL, DB2, SFTP, CIF File Mapping, IBM Debug Tools

---

EDUCATION

Diploma in Computer Science
42 Wolfsburg, Germany | *September 2024 - February 2026 (Expected)*

Master of Technology
JNTU Anantapur, India | *August 2017 - September 2020*

Bachelor of Technology
JNTU Hyderabad, India | *August 2011 - August 2015*

CERTIFICATIONS

Cyber Security- Ironhack Berlin , Excel: Business Intelligence (Advanced Data Analysis)
